

University of Rzeszów's Commitment to SDGs

The University of Rzeszów is committed to the United Nations Sustainable Development Goals (SDGs) through innovative, high-quality, inclusive and accessible digital teaching and learning, continuous professional development, research, partnerships at regional, national, and global levels, and effective institutional resource management.

The University shall undertake the following activities:

- Establish a University Centre for Sustainable Development.
- Identify SDGs related to each faculty, curriculum, and research and teaching centre.
- Implement sustainability-focused initiatives.
- Support public engagement activities.
- Form higher and steering committees at the University and regional level.
- Develop outreach programmes.

Vision

The University of Rzeszów aims to support the UN 2030 agenda and the 17 Sustainable Development Goals by paving the way for higher education in Poland and by facilitating the adaptation of education and training systems to the requirements of the digital age.

Mission

The University of Rzeszów, following its own strategic directions and supporting the 2030 Agenda, commits to the SDGs by providing quality education, lifelong learning for all, top-quality research, sustainability initiatives, and community service. Special emphasis shall be placed on formulating and developing respective SDG policies and conducting awareness campaigns within the University and the local community of the Subcarpathian region in Poland. The University of Rzeszów is committed to reaching the UN Sustainable Development Goals as its primary objective and to promoting social sustainability as a crucial factor to achieve societal stability.

Professor Adam Reich
