BRIEF DESCRIPTION OF COURSE (100-200 words)				
<p>The aim of the course 'Scientific conference/exhibition/performance' is to prepare doctoral students for active participation in national and international scientific events, which are an important part of every researcher's work.</p> <p>An integral part of scientific activity, alongside conducting research, is presenting and disseminating its results – both through publications and presentations at conferences, symposia and scientific congresses. Participation in such events involves the need to conduct a scientific debate on the adopted research assumptions, the results obtained and any methodological and theoretical limitations. The skills acquired are an important component of the scientific development of every researcher.</p> <p>During the classes conducted as part of the Scientific Conference/Exhibition/Presentation course, doctoral students will improve their skills related to the preparation of conference presentations, develop their rhetorical skills, and learn how to effectively present the results of their own research and prepare abstracts. The issues presented will be the subject of joint analysis and discussion, fostering the development of the ability to initiate scientific dialogue and conduct in-depth debate in the field of legal sciences and the subject matter of the doctoral student's research, including in a foreign language.</p>
