4 METHODS AND EVALUATION CRITERIA

4.1 Methods of verification of learning outcomes

Symbol of effect	Methods of assessment of learning outcomes (Eg.: tests, oral exams, written exams, project reports, observations during classes)	Form of classes
EK_01	colloquium	Lectures, Seminars
EK_02	colloquium	Lectures
EK_03	colloquium	Lectures, Seminars
EK_04	colloquium	Lectures
EK_05	colloquium	Lectures, Seminars
EK_06	colloquium	Lectures, Seminars
EK_07	colloquium	Lectures
EK_08	colloquium	Lectures, Seminars
EK_09	colloquium	Exercise
EK_10	colloquium	Exercise
EK_11	colloquium	Exercise
EK_12	colloquium	Exercise
EK_13	colloquium	Exercise
EK_14	colloquium	Lectures, Seminars
EK_15	colloquium	Lectures, Seminars
EK_16	colloquium	Lectures, Seminars
EK_17	colloquium	Lectures, Seminars

4.2 Conditions for completing the course (evaluation criteria)

Seminars (pass with grade including student's skills, attendance, grades from partial tests):

1. full participation and activity in the exercises
2. written partial credits

Range of ratings: 2.0 - 5.0

Lectures (oral or written final credit):

1. test pass and open questions:

A: Questions in the field of messages to remember;

B: Questions regarding the message to be understood;

C: Solving a typical written task;

D: Solving an atypical writing task;

- for insufficient solution of tasks only from areas A and B = grade 2.0

- for solving tasks only from areas A and B, the possibility of obtaining max. rating 3.0

- for solving tasks from the area A + B + C, the possibility of obtaining max. evaluation 4.0

- for the solution of tasks in the area A + B + C + D, the possibility of obtaining a rating of 5.0

Knowledge assessment:

Written test

5.0 - has knowledge of each of the contents of education at the level of 90% -100%

4.5 - has knowledge of each of the content of education at the level of 84% -89%

4.0 - has knowledge of each of the content of education at the level of 77% -83%

3.5 - has knowledge of each of the content of education at the level of 70% -76%

3.0 - has knowledge of each of the content of education at the level of 60% -69%

2.0 - has knowledge of each of the contents of education below 60%

Skill assessment

5.0 - the student actively participates in classes, is well prepared, can skillfully conduct a conversation with an adult patient, child and family using the technique of active listening and expressing empathy

4.5 - the student actively participates in the classes, with little help from the teacher, he is able to interview the adult patient, child and family with good use of the technique of active listening and expressing empathy
