

SYLLABUS
concerning the cycle of education 2019-2025

(date range)

1.1. BASIC INFORMATION CONCERNING THIS SUBJECT / MODULE

Subject / Module	Urology
Course code / module *	Ur - F
Faculty of (name of the leading direction)	Medical College of Rzeszów University
Department Name	Medical College of Rzeszów University
Field of study	medical direction
Level of education	uniform master's studies
Profile	practical
Form of study	stationary / extramural
Year and semester	year V, semester IX
Type of course	Clinical clinical sciences
Coordinator	Dr hab. Zbigniew Jablonowski
First and Last Name of the Teacher	

* - According to the resolutions of the Faculty of Medicine

1.2. Forms of classes, number of hours and ECTS

Lecture	Exercise	Conversation	Laboratory	Seminar	ZP	Practical	Self-learning	Number of points ECTS
15	30	-	-	-	-	-	15	2

1.3. The form of class activities

☒ classes are in the traditional form

☐ classes are implemented using methods and techniques of distance learning

1.4. Examination Forms / module (exam, credit with grade or credit without grade)

2. REQUIREMENTS

News in the field of anatomical structure of the urinary tract and its functioning.

3. OBJECTIVES, OUTCOMES, AND PROGRAM CONTENT USED IN TEACHING METHODS

3.1. Objectives of this course/module

C1	Getting acquainted with theoretical and practical basics in the field of the most important diseases of the genitourinary organs.
C2	Teaching assistant at typical urological procedures.

3.2 OUTCOMES FOR THE COURSE / MODULE (TO BE COMPLETED BY THE COORDINATOR)

EK (the effect of education)	The content of the learning effect defined for the subject (module)	Reference to directional effects (KEK)
EK_01	knows the rules for the qualification and performance of basic surgical procedures and invasive diagnostic and therapeutic procedures	F.W3.
EK_02	can assess the indications for performing suprapubic puncture and participate in its implementation	F.U23.
EK_03	Assists with typical urological procedures (diagnostic and therapeutic endoscopy of the urinary system, lithotripsy, prostate puncture)	F.U24.
EK_04	can establish and maintain a deep and respectful contact with the patient	K.01.

3.3 CONTENT CURRICULUM (filled by the coordinator)

A. Lectures

Course contents
Organizational and introductory classes. Familiarizing students with problems, pass criteria.
Diagnostic imaging of kidneys, upper and lower urinary tract
Urinary calculus with regard to modern treatment methods: ESWL, PCNL, URS.
Functional disturbances of micturition, diagnosis and classification of functional disorders of the lower urinary tract, the problem of not receiving urine.
Indications for performing urodynamic tests. Directing the patient to a urodynamic study
Drenching in children, Treatment of stress urinary incontinence.
Congenital defects of the kidneys and genitourinary organs
Male infertility and erectile dysfunction.
Urgent cases

B. Exercises

Course contents
Organizational and introductory classes. Familiarizing students with issues, pass criteria.
Urological examination. Interview and physical examination of the kidneys, bladder, penis, scrotum and testes, gland, prostate)
Diagnostic imaging of kidneys, upper and lower urinary tract
Functional micturition disorders
Congenital defects of the kidneys and urogenital organs
Injuries of the kidneys and urogenital organs
Cancer of the kidneys and organs of the genitourinary system
Diseases of the prostate gland
Urolithiasis
Infections of the kidneys and urinary tract
Male infertility
Erectile dysfunction
Urological instruments
Basic urological procedures (diagnostic and therapeutic endoscopy of the urinary system, lithotripsy, prostate puncture)
Pass a subject

3.4 TEACHING METHODS

Lecture: multimedia presentation.

Exercises: multimedia presentation, case analysis

Student's own work: work with a book, work with anatomical atlas

4 METHODS AND EVALUATION CRITERIA

4.1 Methods of verification of learning outcomes

Symbol of effect	Methods of assessment of learning outcomes (Eg.: tests, oral exams, written exams, project reports, observations during classes)	Form of classes
EK_ 01	Oral or written test	Lecture
EK_01	Oral or written test of a given batch of material	Exercises

EK_02	Practical credit - case analysis and active participation during puncturing	Exercises
EK_03	Practical credit - active participation in typical urological procedures	Exercises
EK_04	Observations during classes	Exercises

4.2 Conditions for completing the course (evaluation criteria)

Lectures:

1. test pass and open questions or oral test:

A: Questions in the field of messages to remember;

B: Questions in the field of speech to understand;

C: Solving a typical written task;

D: Solving an atypical writing task;

- for insufficient solution of tasks only from areas A and B = grade 2.0

- for solving tasks only from areas A and B, the possibility of obtaining max. rating 3.0

- for solving tasks from the area A + B + C, the possibility of obtaining max. evaluation 4.0

- for the solution of tasks in the area A + B + C + D, the possibility of obtaining a rating of 5.0

Knowledge assessment [EK_01]:

Written test

5.0 - has knowledge of the education content at the level of 93% -100%

4.5 - has knowledge of the content of education at the level of 85% -92%

4.0 - has knowledge of the content of education at the level of 77% -84%

3.5 - has knowledge of the content of education at the level of 69% -76%

3.0 - has knowledge of the content of education at the level of 60% -68%

2.0 - has knowledge of the educational content below 60%

Exercises:

1. full participation and activity in the exercises

2. written partial credits

There are unannounced tests from the last three classes.

Knowledge assessment [EK_01]:

Written test

5.0 - has knowledge of the education content at the level of 93% -100%

4.5 - has knowledge of the content of education at the level of 85% -92%

4.0 - has knowledge of the content of education at the level of 77% -84%

3.5 - has knowledge of the content of education at the level of 69% -76%

3.0 - has knowledge of the content of education at the level of 60% -68%

2.0 - has knowledge of the educational content below 60%

Skill assessment [EK_02, EK_03]

5.0 - the student actively participates in classes, is well prepared, has a very good knowledge of theoretical and practical in the field of urological diseases, assists with typical urological procedures

4.5 - the student actively participates in the classes, has a good degree of theoretical and practical knowledge in the field of urological diseases, assists with typical urological procedures

4.0 - the student actively participates in the classes, is improved, has acquired theoretical and practical knowledge in the field of urological diseases to a good extent, assists with typical urological procedures

3.5 - the student participates in classes, his scope of preparation does not allow for a comprehensive presentation of the discussed problem, he has acquired theoretical knowledge sufficiently

and practical in the field of urological diseases, assisting in typical urological procedures, but it is often corrected

3.0 - the student participates in the classes, has sufficiently acquired theoretical knowledge and practical in the field of urological diseases, assisting in typical urological procedures, however, it is often corrected and makes many mistakes

2.0 - the student passively participates in classes, the statements are incorrectly substantive, theoretical and practical knowledge in the field of urological diseases is insufficient, can not assist with typical urological procedures

5. Total student workload required to achieve the desired result in hours and ECTS credits

Activity	Hours / student work
Hours of classes according to plan with the teacher	45
Preparation for classes	15
Participation in the consultations	2
The time to write a paper / essay	-
Preparation for tests	-
Participation in colloquia	-
Other (e-learning)	-
SUM OF HOURS	62

TOTAL NUMBER OF ECTS	2
----------------------	---

6. TRAINING PRACTICES IN THE SUBJECT / MODUL

Number of hours	-
Rules and forms of apprenticeship	-

6. LITERATURE

<p>READING:</p> <ol style="list-style-type: none"> 1. Podręcznik urologii, Diagnostyka i leczenie Siroky Mike B., Oates Robert D., Babayan Richard K. Czelej, 2006 2. Uroinekologia praktyczna ,(red.) Rechberger Tomasz, BiFolium, 2007 3. Urologia, Podręcznik dla studentów medycyny (red.) Borkowski Andrzej, PZWL, 2008
<p>Additional literature:</p> <ol style="list-style-type: none"> 1. Atlas laparoskopii urologicznej (red.) Chłosta Piotr, Słojewski Marcin Polskie Towarzystwo Urologiczne, 2008 2. Atlas urodynamiki Blaivas Jerry, Chancellor Michael, Weiss Jeffrey, Verhaaren Michael, MediPage, 2008 3. Łagodny rozrost gruczołu krokowego Kirby Roger S., McConnell John D. Via Medica, 2003 4. Nietrzymanie moczu u dzieci i dorosłych Paruszkiewicz Grzegorz, Gidian Danuta Borgis, 2003 5. Nowotwory i torbiele nerek (red.) Borkowski Andrzej, Czaplicki Maciej PZWL, 2002 6.
