

AI-TEACH SUMMER SCHOOL 2026

Make AI work for your teaching

Curious about how artificial intelligence is reshaping teaching, learning and assessment?

Join an **international Summer School at the University of Rzeszów, Poland**, where educators, researchers and students explore AI through hands-on workshops, practical examples, critical reflection and collaborative activities.

- Discover **practical ways** to use AI more confidently and responsibly
- Explore **current themes** such as prompting, bias, ethics and assessment
- **Exchange ideas** with experts and peers from across Europe

**30 August to
4 September 2026**

University of Rzeszów, Poland

WHO IS IT FOR?

This Summer School is designed for **pre-service students and teacher educators** interested in the meaningful and responsible use of AI.

No advanced technical background required

WHAT'S IN IT FOR YOU?

- A stronger understanding of AI in education
- Ideas you can transfer to your own teaching or training practice
- Practical experience with tools, prompting and reflection activities
- New perspectives on ethics, bias, data and human judgement

PROGRAMME HIGHLIGHTS

Across the week, you will explore themes such as:

- Foundations of generative AI
- Learning with AI, teaching with AI and AI-driven systems
- Prompting and classroom-ready applications
- Bias, stereotypes and ethics
- Learning analytics and AI-supported feedback
- Assessment, decision-making and human judgement

The programme combines workshops, practical challenges, collaborative work, microteaching session to High School students and critical reflection.
