

The figure displays four weekly timetables for students, spanning from Tuesday to Friday. Each timetable is structured with time slots on the vertical axis (from 7:00-8:00 to 21:00-21:30) and student groups (I through VII) on the horizontal axis. The schedules are color-coded to represent different types of activities:

- Yellow:** Lectures or theoretical sessions.
- Green:** Seminars or practical exercises.
- Pink:** Exams or assessments.
- Blue:** Clinical practice or specialized training.

Key activities include:

- Tuesday:** Focuses on neurophysiology and anatomy, with practical exercises in neurophysiology and anatomy.
- Wednesday:** Includes a large block for "PRAKTYKA ZAWODOWA" (Professional Practice) from 7:00 to 12:30, followed by English language lessons and specialized practical exercises.
- Thursday:** Continues with English language lessons and specialized practical exercises, including a session on "Planowanie fizjoterapii w neurologii i neurochirurgii" (Planning physiotherapy in neurology and neurosurgery).
- Friday:** Features a large green block for "Planowanie fizjoterapii w neurologii i neurochirurgii" (Planning physiotherapy in neurology and neurosurgery) and a pink block for "Planowanie fizjoterapii w ortopedii i traumatologii" (Planning physiotherapy in orthopedics and traumatology).
